Performance™  
SERIES

Enjoy Enhanced Air Quality and Efficiency

# Things to Consider Before You Buy

## Comfort

Carrier specializes in creating a customized home comfort system tailored to your needs with our broad selection of residential heating and cooling products. Your Carrier® dealer can help you choose the best system for your home, including an EZ Flex™ Expandable Media Filter with Cabinet and Carrier-exclusive features that further enhance your indoor environment.

- Today's energy-efficient homes seal in more airborne irritants than ever before.
- Dust, dirt, pollen, mold spores and more are circulated throughout your home through your vents.
- High-efficiency air filtration can help clear the air that you breathe every day.
- Cleaner indoor air offers a number of benefits to your indoor furnishings, your home comfort system and more.

## Performance

There's no escaping it. Your home is invaded on a daily basis by airborne pollutants from a number of sources. Pollen, mold spores and more enter through open doors and windows. Family and friends can spread viruses and bacteria. Your beloved pets shed hair and dander. Even walking across the carpet can kick up an invisible dust storm. Standard, one-inch system filters may provide a small amount of protection, but they just aren't as effective as the EZ Flex system.

## Convenience

The EZ Flex is a convenient and affordable solution to improved indoor air quality and system performance. Once installed, you can relax and enjoy the benefits because it is designed to allow optimum airflow even as pollutants build up on the EZ Flex filter. Maintenance is a breeze as well – simply remove and replace the disposable filter once or twice a year.

- The EZ Flex cabinet is designed for a quick and easy upgrade to even greater filtration capabilities using our electronic air cleaner
- You can count on performance backed by Carrier, the world's most recognized name in lasting, reliable indoor comfort solutions

## Technology

- 1 **Rugged, durable cabinet** – built with 20-gauge steel and a powder coat painted finish that can support a 400 pound furnace.
- 2 **Versatile design** – allows installation of EZ Flex cabinet and EZ Flex filter now, with an easy upgrade to our electronic air cleaner later.
- 3 **Efficiency and airflow** – with a MERV 10 rating, the EZ Flex filter effectively traps unwanted particles while allowing smooth, efficient airflow. An optional MERV 13 filter is available for customers who desire a higher level of filtration efficiency.
- 4 **Expandable design** – the filter is patented and uses a sophisticated manufacturing system to precisely attach the spacing ribbons for optimum performance and low air flow resistance.
- 5 **Engineered for performance** – while some filters are designed by manufacturers that only focus on filtration, Carrier engineers its filters to maintain the highest level of system performance.
- 6 **Filter change reminder** – helps homeowner track when future filter changes are needed.

## Limited Warranty

To the original owner, the Carrier® Performance™ Series EZ Flex™ cabinet is covered by a five-year parts limited warranty. See warranty certificate at [carrier.com](http://carrier.com) for complete details.

## Turn to the Experts

Willis Carrier invented air conditioning in 1902. Over 100 years later, we're proud to say Carrier® systems are trusted in more homes than any other brand.

Carrier continues to be on the forefront of innovative engineering and unsurpassed standards of excellence. So when choosing a home comfort system, you'll want to turn to the experts. Your Carrier dealer will evaluate your home, such as window placement and size, ductwork, other structural specifics and lifestyle to provide a customized indoor comfort plan designed specifically for you. And when you have an expert helping you make an educated decision, you're going to feel more comfortable.
