

BOILER

Program

This program is for your gas boilers & Combi Boilers. Under the program, any accessories including filters, etc. are 15% off MSRP.

Maintenance

Maintenance is required once a year to maintain manufacturer's parts warranty

- Clean flame sensor
- Clean water filter
- Clean burner slots
- Inspect the blower
- Inspect ignitor
- Inspect gas connections
- Inspect heat exchanger
- Inspect the flue system
- Refresh water pressure
- Test thermostat operation

Protection

Labour & Parts coverage in the event of a unit breakdown

What is fully covered?

- Aquastat controls
- Automatic vent motor
- Flow switch
- Temperature sensor
- Pressure relief valve
- Internal wiring
- Limit controls
- Primary circulator
- Ignition system

What is not covered?

- Batteries for feed valves
- Heat exchanger
- Draining of the boiler
- Low & high water cut-off valves
- Heating sections
- Back check valves
- External drain tubing

*Our liability, for parts and labor related to 'partially covered' units and services, is limited to a maximum retail value of CAD \$450 per year of plan coverage, inclusive of HST.

*The thermostatic expansion valve can be fully covered as long as it can be detached without causing damage to the coil.
